GUIDE WHAT MAKES TSWALU UNIQUE

Sense of Space Tswalu

Tswalu Kalahari is South Africa's largest private game reserve. This vast and magical landscape takes conservation as its first priority; with its vision: To leave our world better than how we found it.

Flexibility

No other game reserve offers such flexibility. Each booking receives their own private vehicle, guide and tracker. Your private, dedicated team gives you the flexibility to choose how you would like to spend your day – from breakfast in bed and an indulgent spa treatment in the comfort of your own deck overlooking the Kalahari, to a leisurely game drive, and a delicious private gourmet picnic which reflects the essence of Africa.

Malaria-free Safari

Tswalu is MALARIA-FREE and guests do not have to worry about taking anti-malaria tablets. It is ideal for families, and at Tswalu we welcome children and actively encourage them to participate fully in the safari experience.

Rare and Diverse Wildlife

Tswalu has superlative game, offering sightings of some of South Africa's rarest and most extraordinary wildlife, including:

- Desert black rhino - Tswalu's population represents one third of South Africa's entire remaining desert black rhino
- White rhino
- Black-maned Kalahari lions
- Leopard
- Disease-free buffalo
- Wild dogs
- Cheetah
- Meerkats
- Giraffe
- Rare antelope such as roan, sable and tsessebe - Tswalu has significant populations of all three species.

There are over 80 species of mammals and 240 species of birds (including endangered raptors), at Tswalu, which is also home to the elusive aardvark, aardwolf, pangolin and brown hyena.

Ancient San Artworks

The Kalahari is the ancestral home of the San people, and some of their ancient engravings can be seen at Tswalu; current research suggests these may be amongst the oldest artworks on Earth.

Privacy and Exclusivity

At maximum capacity Tswalu will take only 28 adults in total – both camps combined. This represents the lowest imaginable density of visitors. The emphasis at Tswalu is on privacy and exclusivity – your own private Kalahari safari. Children are welcome at both camps.

THE KALAHARI

The name Kalahari is derived from the Tswana word “Kgala”, meaning the great thirst, or “Kgalagadi”, meaning the waterless place. The southern Kalahari, due to its location and climatic conditions, receives somewhat more rain than the central Kalahari. It is for this reason that the southern Kalahari is frequently referred to as the “Green Kalahari”. Within the reaches of Tswalu lie the Korannaberg Mountains, a quartzite formation attached to the Olifantshoek Supergroup. The mountains form a huge basin which acts as a natural catchment area and provides a healthy water table, enabling the reserve to support a large diversity of life.

Tswalu is a vast, magical land of infinite possibility, with sweeping vistas and a liberating sense of space. The green Kalahari is nature at its most diverse and surprising, and to spend time here is to be touched by exuberant, soulful beauty. Considered important for thousands of years, we're now striving to conserve this breath-taking landscape for future generations.

Tswalu lets you reconnect with the richness of the earth. It offers an escape to a place that's governed by the ancient rhythms of the seasons, rather than the clock and the calendar. It offers a vision of hope that brings together conservation, research and unrivalled safari experience. Everything we do is centred around our creed: To leave our world better than how we found it.

Because of its unique landscape, wildlife and safari experience, Tswalu works perfectly with any South African itinerary and provides the ideal partnership with both the Lowveld game farms and Cape Town.

The many San Engraving sites at Tswalu testify to the importance with which earlier inhabitants regarded the green Kalahari. It gave them sanctuary and both physical and spiritual nourishment. During the 20th Century, this link between people and their surroundings was disrupted by attempts at cattle farming and hunting.

Tswalu is a labour of love for the Oppenheimer family, who took responsibility for this remarkable reserve in 1998. Since then, their commitment to conservation has seen indigenous species re-introduced, and real strides made towards the restoration of the Kalahari, and the undoing of years of neglect.

In its new incarnation as a private nature reserve and conservation success story, Tswalu is bringing this ultimate ambition a little closer each day: To leave the world better than how we found it.

WILDLIFE

There is a perception that the southern Kalahari is a sparse and desolate desert. In reality it is a semi-arid grassland with wide open savannahs and a diversity of habitats. Tswalu is unique because it has typical Kalahari savannahs and sand dunes as well as the Korannaberg Mountains which increase the biodiversity of the area enormously. The mountains also provide spectacular backdrops for the landscape.

The variety of habitat and climate have resulted in an extremely diverse animal population. There are about 80 species of mammals and 240 species of birds. The open habitat makes for excellent game viewing.

Our vehicles have exclusive access to the entire reserve. There is no reason to queue for a sighting and no limit to the time guests can spend at sightings, because they are not competing with other vehicles.

Many of the animals that guests can expect to encounter on a game drive (or horse ride or walk) are species that are seen in more traditional safari areas (such as zebra, buffalo, giraffe, and white rhino) but many are also unique to the area, in particular the antelope. The Kalahari species include gemsbok, springbok, eland, red hartebeest and more. In addition, there are great opportunities to see rare species which are seldom seen in the traditional safari areas. These include roan and sable antelope, tsessebe, Hartmann mountain zebra and, of course, the desert black rhino.

The larger predators also offer excellent viewing opportunities. The Kalahari lions, although the same species as other lions across Africa, are famed for their size and beautiful manes. The Kalahari grasslands lend itself to excellent cheetah viewing and wild dog are also regularly seen on game drives.

Tswalu's small carnivores offer perhaps the most special and unique sightings. Meerkat viewing is unparalleled because the reserve has two colonies of habituated meerkats that have grown to trust people and allow close approach and observation. Apart from the more common small predators such as jackal and wild cat, unusual carnivores include bat eared fox, aardwolf, brown hyena, and small spotted genet.

"I can say with confidence that Tswalu is probably the best place on earth to view aardvark and pangolin. Both these unusual animals are rarely seen elsewhere but the open grasslands on Tswalu make the animals easier to find, particularly during winter when they emerge in daylight to search for ants and termites."

– Gus van Dyk

CONSERVATION

The word "Tswalu" means "a new beginning" and Tswalu Kalahari is driven by its creed: To leave our world better than how we found it. It has two ambitions; to create an inspirational experience for its guests, and a conservation vision - to restore the Kalahari to itself. These two goals sit in perfect equilibrium as each guest contributes directly to the sustainability of the reserve in a true model of eco-tourism.

Tswalu offers a haven for many endangered and rare species in an area of unique diversity and beauty. Hospitality operations serve as a means towards ensuring that the conservation objectives of the property are sustainable, while at the same time ensuring that the people of the area benefit from the work opportunities and training that tourism development offers. Conservation, socio-economic development, tourism and responsible environmental management are the four legs upon which Tswalu has been developed.

Tswalu Kalahari aims to contribute to conservation through three main conservation goals, - the restoration of the natural environment to a pristine condition, the re-establishment and protection of biological diversity and the maintenance of the natural ecological processes and characteristics of the Kalahari environment. We have adopted a holistic approach to correcting past mistakes, laying the groundwork for long-term ecological and economic viability, and creating a model of conservation supported by ecotourism that can be sustained indefinitely. This entails the management of the entire ecological system, including the vegetation and the available water resources to restore vital ecological processes which have disappeared in other parts of the Kalahari, thereby maximising the diversity of life found in the region.

The Tswalu ecotourism model recognises that the people of the greater Kalahari are an integral part of the ecosystem, and crucial to solving the conservation challenges we all face. Running a viable ecotourism business lets us create upskilling and employment opportunities for people from our closest settlements and provide them with meaningful careers as well as enhanced health and education services.

THE TSWALU FOUNDATION

From Tswalu's earliest days, there has been a recognition that we can only care for and conserve what we can understand. Research has become a vital part of what we do at Tswalu and continues to reveal fascinating aspects of the ecology. Indigenous animal species have been successfully (re)introduced and are thriving.

Research

The Tswalu Foundation (TF) was created as a result of the forward thinking and love of the Kalahari by Mr Jonathan Oppenheimer in 2008. His founding vision for the Foundation was to develop a platform on which local and international visitors could contribute and involve themselves in environmental research on Tswalu Kalahari – either to an existing project or to suggest and fund specific projects in areas of interest to the funder. The Kalahari system is a unique, vast and understudied area, thus this Foundation assists in developing research programs and protocols and therefore assists in the development of a better understanding of its unique fauna and flora in a direct, hands-on manner. The Foundation is fundamental in not only developing a greater appreciation for the beauty of the Kalahari and its abundant wildlife, but also provides encouragement and support to gain knowledge to better manage this unique part of Africa.

Tswalu Kalahari is driven by a strong conservation and community development ethic, and whilst the Oppenheimer family have sanctioned numerous projects, the Foundation affords more researchers to study in the southern Kalahari. Experience over the years has taught us that the longevity of the project is determined by the interactive nature of the project. We encourage researchers to share their concepts and progress with our guests – who, if inspired by the work, will continue to contribute to funding the project through the Foundation. Essentially, it becomes a self-funding campaign through guest contributions.

As well as being an incredible community of flora and fauna, Tswalu is also an extended human family of people from the Kalahari and beyond. We find strength in our diversity, and because we all share the same vision for the future of Tswalu, we can combine our energies and passion to make Tswalu's vision a reality.

The Tswalu community consists of our staff members and their families, researchers, visiting doctors that support the healthcare centre, visiting artists in residence, and each of our guests, alongside a wider community of neighbours, conservationists and everyone who cares about the restoration of the Kalahari.

Tswalu Healthcare Centre

The Tswalu Healthcare Centre is a focal point for the community, providing vital medical services and health education to improve the quality of life for approximately 5000 people per year in the surrounding communities, and our own team members and their families. This project would not be possible without the vision and support from Dr Ludwig Foking who championed the development after a visit to Tswalu decades ago. It is also supported by the South African government and by generous donations.

Tswalu School

The Tswalu school provides the ideal educational foundation for our staff members' children. More structured learning sessions are integrated with creative play and opportunities to explore their surroundings. Our Adult Basic Education and Training (ABET) programmes assist our team members, and their families, with literacy and gaining formal recognition for their skills and knowledge.

Vegetable Garden

Rather than add to our carbon footprint transporting food over long distances, we are actively growing our own fresh produce, and continuing to investigate sustainable approaches to small-scale horticulture. Combining traditional

techniques with modern, minimal water irrigation techniques has enabled us to reduce our food supply radius while providing our kitchens with new inspiration.

Artist in Residence

A recent addition to the Tswalu Foundation, the Artist in Residence (AIR) program was initiated as a way to highlight local South African artists and their diversity of talent. Visiting artists are encouraged to gain inspiration for their work from the vast expanses of the Kalahari and its varied landscapes, culture, fauna and flora.

Artists are selected by a core team of Foundation members as well as key input from Mark Read of the Everard Read gallery. Selected artists will be able to put forward suggestions for future AIR candidates thereby growing the outreach potential of the program.

Once a body of art has been completed the artist has the opportunity of exhibiting their work at the prestigious Everard Read gallery in Johannesburg. This generates exposure for not only the artist concerned and the Tswalu Foundation, but also for the incredible depth of talent that South African artists can bring to the art world.

A key feature of the AIR program is that all proceeds generated from the sale of artwork produced while an artist is involved with the program go towards funding environmental research on Tswalu and as such close the loop between environment, skills development and community.

ACTIVITIES AT TSWALU

At Tswalu, itineraries are planned around our guests' individual needs and a personal consultation on arrival allows guests to choose their daily activities, which include:

Private Game Drives in open-sided, canopied vehicles

Each booking receives their own private vehicle, guide and tracker for the duration of their stay. Our game drives are never standard and are tailored to guests' interest. Our expert rangers and trackers are specially trained in the unique Kalahari ecology

Bush Walks

For adult guests, we can also arrange night walks which uncover the magic of the Kalahari after sunset

Encounters with Meerkat colonies

Spend time viewing these enchanting animals at close range

Horseback Safaris for all ages

We have a variety of horses ranging from 14.2HH to 17.1HH. The breeds include Boerperd cross, Quarter Horse cross, Thoroughbred, Shire, Appaloosa cross, Arab cross and Saddle cross breeds. An experienced horse guide and backup rider accompany all rides, equipped with radio and comprehensive first aid kit. We accommodate from first time riders to experienced equestrians. We also accommodate children on the rides. Younger and nervous children, depending on riding experience, may be put on lead ropes. The weight limit is 100kg. We use Trail saddles, but also have a few English saddles available for those guests that prefer them.

Stargazing under the Kalahari's "diamond skies"

Certainly one of the best places to stargaze in South Africa

Exploring extraordinary archaeological sites

Pack a picnic and explore the Korannaberg hills where the San rock art dates back 380,000 years

Tswalu Kalahari Spa

Our award-winning spa offers a welcome lounge, two beautiful therapy suites with adjacent sensation showers with a private garden. In keeping with Tswalu's philosophy, the spa is crafted from natural materials with reed ceilings and dry-stone walls in the indoor and outdoor showers.

Tswalu Helicopter Experiences

See Tswalu from above with the Agusta Westland 119, a versatile single-engine helicopter ideally suited to VIP transport. Based at Tswalu, the Agusta is available for private helicopter flips on Tswalu, excursions to nearby points of interest and historical landmarks, and a shuttle service to Upington airport.

The Malori Sleep-out

Spend the night surrounded by the calls of nocturnal animals, with nothing between you and the brilliant stars of the Kalahari night sky...

- There is no compromise on luxury
- An adjacent outdoor toilet, basin and shower are just a short distance away along a lighted walkway
- On arrival, the guide sets up drinks and snacks while guests enjoy the spectacular views
- Enjoy sundowners followed by a delicious meal. Wake at sunrise to the sounds of early morning in the Kalahari
- Children's camping beds are available, so the whole family can enjoy a Kalahari sleep-out

THE MOTSE

- Private game viewing vehicle with a dedicated guide and tracker for all bookings
- It was recently renovated (2019) to uncompromising standards of comfort and elegance
- The Motse accommodates up to 18 adults in nine individual legae (suites) made from desert sand, rock and thatch
- Children are accommodated in all both legae types, but three of the nine legae have been designed especially for families and comprise two separate bedrooms with en-suite bathrooms, and a spacious, shared living area
- Each legae has an en-suite bathroom with walk-in shower, outside shower with views of the surrounding bush and wildlife, an open fireplace, separate dressing and study area, telephone, safe, wireless internet, and private sun deck with stunning views of the Kalahari
- The main lodge at The Motse has elevated decks, a spacious lounge and dining area, a library, a fully equipped gym and adjacent spa, an impressive wine cellar and traditional Boma
- There is also a large, outdoor pool, and a smaller solar heated pool with views of a waterhole and the game it attracts

TARKUNI

- Formerly the Oppenheimer family's private Tswalu residence, Tarkuni becomes your own family holiday home beneath the Korannaberg Mountains.
- Ideal for smaller groups, from family parties to close friends, the homestead accommodates a maximum of 10 guests in five luxurious bedrooms, each with en-suite bathroom and outdoor star bed
- Children are welcome
- The homestead has a vast open-plan lounge and dining room, and a cosy library and games room
- A covered deck leads to a private tsala and swimming pool
- Tarkuni comes complete with a private vehicle, dedicated guide and tracker
- A personal chef creates the luxury of completely flexible dining

CHILDREN AT TSWALU

Part of our mission is to involve the whole family in our conservation vision, and Tswalu Kalahari is an extraordinary place for children.

- Tswalu is located in a malaria-free area
- There are child-friendly swimming pools at both camps
- Children under 12 stay absolutely free with their parents in a suite at The Motse (maximum two)
- Three specially designed family suites easily accommodate larger families with younger children
- There is a children's menu, and any individual meal preferences are catered for
- Flexible dining times and venues for families
- Complimentary babysitting to allow parents to enjoy more formal or private evenings
- On arrival children receive a backpack which includes Tswalu's Junior Ranger training guide
- An exciting programme of special activities for children includes:
 - Archery and making bows and arrows
 - Spoor identification and casting
 - Children's bush walks
 - Tracking wildlife on foot and with technology
 - Picnics, special children's boma meals
 - Baking
- Guided horse trails
- Unlike many reserves, we happily include younger children on private game drives

CUISINE

Every moment of every meal at Tswalu reflects the culinary heritage of South Africa and is carefully designed to be as inclusive as possible. Sustainability is key: we forage for Kalahari ingredients and work with local suppliers who share our low-impact ethos.

We believe that luxury is found in contextual, relevant flavours rather than wasteful over-abundance. Our food offering helps tell the story of Tswalu and it's inspired by and captures the essence of the Kalahari.

Working in partnership with Michelin-starred South African chef Jan Hendrik van der Westhuizen, our chefs look to reinterpret the flavours they find around them and create unique taste touchpoints at every turn. Our choice of ingredients is only half the story; the context from which they come and in which they are served completes the picture.

HOW TO GET TO TSWALU

Where is Tswalu

Tswalu is located in the southern Kalahari and is accessible by both air and road. Comprehensive directions and distances by road are available at www.tswalu.com.

Helicopter Transfer

The Agusta Westland 119 is a versatile single-engine helicopter ideally suited to VIP transport. Based at Tswalu, the Augusta is available for private helicopter flips on Tswalu, excursions to nearby points of interest and historical landmarks, and a shuttle service to Upington airport. The helicopter transfer provides seamless access to domestic flights via Upington, as well as being the closest international airport to Tswalu, for cross boarder safari itineraries.

Agusta Aw119

- Range capability: 450nm (840km)
- Typical Cruise Speed: 130 knots (240km/h)
- Cruise Altitude: 8000 ft
- VIP Seating: 6 persons including pilot

By Air

Tswalu operates a daily scheduled service direct to the reserve's own airstrip.

- Departures from BOTH Cape Town International Airport and Johannesburg's OR Tambo International:

Cape Town:	Departures from Execujet Aviation (2 hour flight) Scheduled times: Flight departs from the Execujet Aviation at 07h50 Flight departs from Tswalu at 14h50
Johannesburg:	Departure from Fireblade Aviation (1.5 hour flight) Scheduled times: Flight departs from Fireblade Aviation at 13h00 Flight departs from Tswalu at 10h20

- Fly in a Pilates PC12, an exclusive pressurised private aircraft. (Based on the number of passengers travelling, the charter company reserves the right to select the aircraft type used for our scheduled flights.)
 - Luggage allowance is 20kg / 44 pounds per person (including hand and cargo luggage) in soft-sided bags on Tswalu scheduled flights. Extra seats may be purchased, at standard rates, should guests wish to travel with excess luggage (will allow for 50kg / 110 pounds in soft sided bag per seat).
 - Alternatively, guests can store luggage at the respective hangar until their return from Tswalu at no charge.
- Tswalu's runway lies within the reserve and is of the highest standard:

Type:	Unmanned airstrip
License:	Category 1 (licence# 170)

Length:	2030 metres
Width:	20 metres
Surface:	Tarred
RW heading:	357 degrees (MAGNETIC)
Altitude:	Northern end 1183,4m Southern end 1194,2m
Gradient:	Mean for the runway is 0.584%
Position:	<p>Northern end @ lights (18) S 270 11' 39.0" E 0220 28' 38.1"</p> <p>Midway S 270 12' 10.1" E 0220 28' 51.0"</p> <p>Southern end @ lights (36) S 270 12' 40.9" E 0220 29' 03.5"</p>
Lights:	<p>Approach angle of PAPI to RW 18 is 3 degrees (calibrated 23/10/08)</p> <p>Please contact Airstrip Manager if lights are required.</p> <p>Lights cannot be activated remotely.</p> <p>No standby power in the event of an ESCOM power failure.</p>
PCN Rating (load):	53/F/B/X/T
Radio frequency:	130.400 Mhz
Other:	<p>QND available on request or SMS "VFATW" to 35010</p> <p>No landing without prior authorisation, proof of insurance and indemnity faxed to Tswalu.</p>

FLIGHT SCHEDULE

Johannesburg to Tswalu	Tswalu to Johannesburg
<p>13H00 depart Johannesburg for Tswalu</p> <p>14H30 arrive at Tswalu from Johannesburg</p>	<p>10H20 depart Tswalu for Johannesburg</p> <p>11H50 arrive in Johannesburg from Tswalu</p>
Cape Town to Tswalu	Tswalu to Cape Town
<p>07H50 depart Cape Town for Tswalu</p> <p>09H50 arrive at Tswalu from Cape Town</p>	<p>14H50 depart Tswalu for Cape Town</p> <p>16H50 arrive in Cape Town from Tswalu</p>

HANGAR DIRECTIONS

DIRECTIONS TO FIREBLADE AVIATION HANGAR

(Johannesburg OR Tambo International Airport)

- From R24 Johannesburg, take the R21 North (Pretoria /Kempton Park)
- From the R21 North take the M43 Atlas Road off ramp
- From (Pretoria) R21 South take the M43 Atlas Road off ramp
- Proceed to the traffic light and turn right. The signboard reads: M45 Benoni (left), M43 Boksburg (straight), Bonaero Drive (right). Proceed to the security Gate
- Turn right at the traffic lights onto Denel North Road (there is a Toyota Warehouse on the left) and follow the sign boards to Fireblade Aviation
- A map can be provided on request
- Should you have any difficulties, please call +27 10 595 3920
- Flight departs Johannesburg 13h00 (check in 12h00)
- Flying time 1 hour 30 minutes

DIRECTIONS TO THE EXECUJET HANGAR

(Cape Town International Airport)

- Take airport turn-off from N2 highway – Exit 16.
- Proceed towards airport and before the bridge, take the Borchers Quarry road turn-off to the left.
- Turn right at robot towards the N2 and proceed over the bridge.
- At first robot turn left into Michigan road.
- At T-junction turn right into Tower road.
- Keep to the right before Thunder City entrance.
- Follow road, making a turn to the left.
- Pass through the security gate and drive straight ahead to the ExecuJet main entrance.

BY ROAD

RECOMMENDED ROUTE FROM JOHANNESBURG

(approximately 650 km)

- Travel to Kuruman via Vryburg (N14)
- At Kuruman follow the signs to Hotazel (R31)
- Approximately 60 km from Kuruman, cross over the railway bridge at Hotazel
- Approximately 15 km further on (before Blackrock) there will be a turnoff and signage to the left indicating “Van Zylsrus/ Kgalagadi Transfrontier Park” on a tar road. Turn at the sign
- After approximately 44 km you will see a gravel road to the left with Tswalu Kalahari Reserve signage (this point is marked “Sonstraal” on maps and GPS). Turn left at the junction and proceed with caution along the gravel road
- Travel approximately 6 km and you will see a gate on either side of the road. Here, The Motse guests will be met by a Tswalu vehicle and escorted further

RECOMMENDED ROUTE FROM KIMBERLEY

(approximately 375 km)

- From Kimberley Airport travel on the R31 for 35 km to Barkley West
- From Barkley West travel 96 km to Danielskuil. Be aware of a turn to the right en-route to Danielskuil
- From Danielskuil travel 71 km to Kuruman
- In Kuruman proceed through town following the signs to Hotazel (R31)
- See route from Kuruman above

RECOMMENDED ROUTE FROM UPINGTON

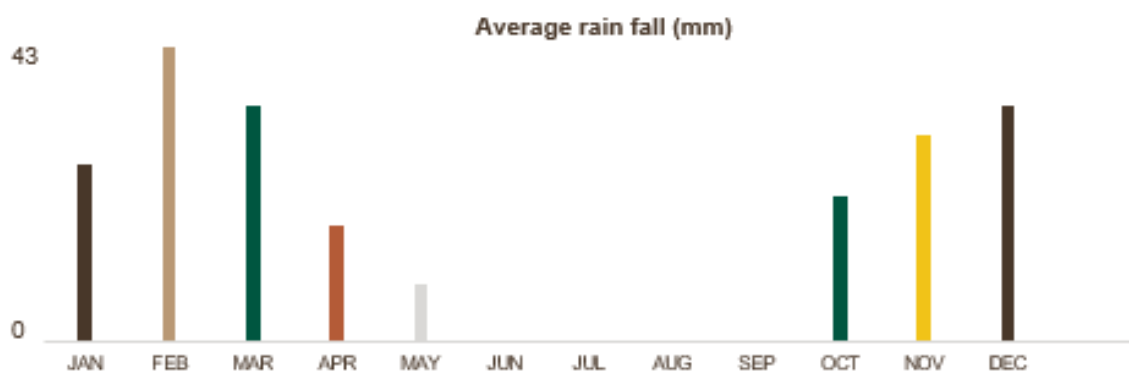

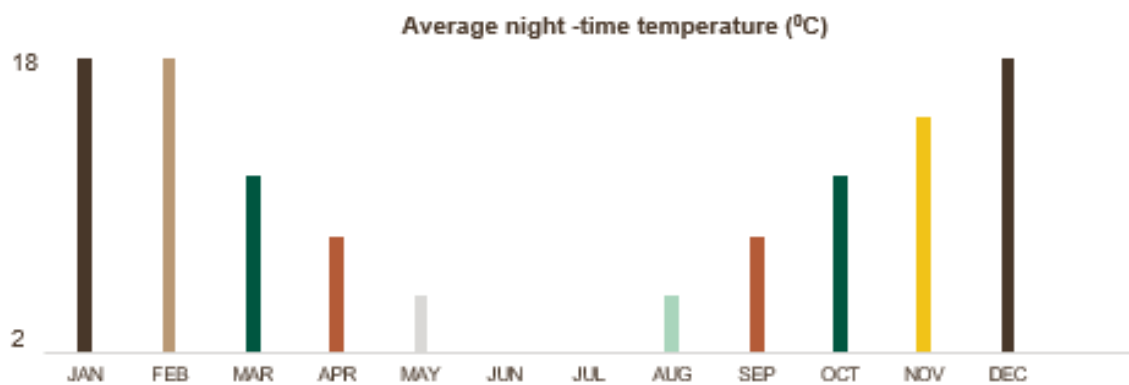

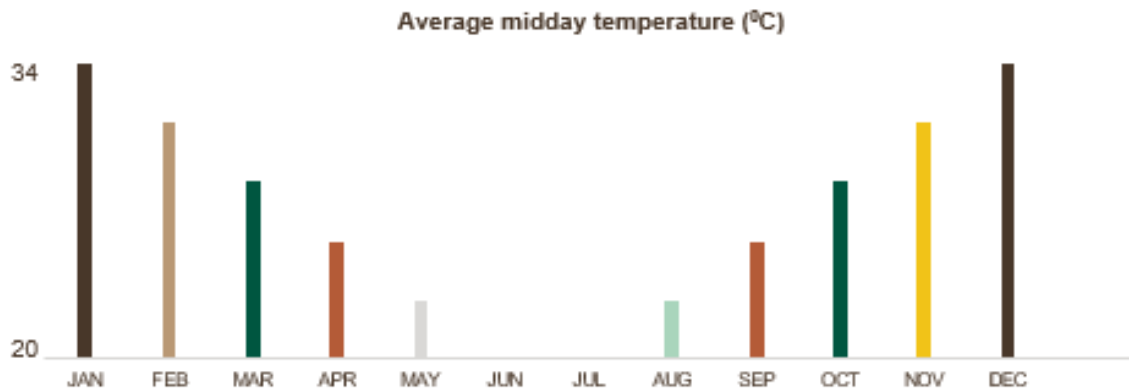

(approximately 350 km, with 10 km on gravel)

- If you are concerned about gravel roads and poor road conditions (especially through the mountain pass) proceed beyond Olifantshoek towards Kathu/Sishen.
- Approximately 210 km out of Upington, with the mine on your left, turn left onto the R380 towards Deben and Sishen Airport
- Proceed through the next two 4-way intersections
- After the second intersection (Kathu Mall on right and Sishen mine on left left) continue for approximately 19 km (past the airfield on the right)
- Look for sign that shows “R380 HOTAZEL”. Turn right onto this road and proceed for 42 km to the next T-junction. Please note that this tar road has potholes in places
- At the T-junction turn left towards Blackrock and continue for approximately 1 km. You will see signage that indicates “Vanzylsrus/ Kgalagadi Transfronteir Park”
- Turn left and continue as described above for the Johannesburg route

THE SEASONS

The seasons in the southern Kalahari can be described in traditional terms (spring, summer, autumn, winter), but their nature and duration are very different. Summer lasts for almost six months.

Spring: September – October

The weather starts to warm up and days are very pleasant with some cool evenings in September

- Some cold fronts can still sweep through and it is best to pack some warm clothing just in case
- In the bush, blackthorn and honeybush are in blossom, scenting the evening air
- “Dry storms” may start forming on the horizon, heralding the approach of the rainy season
- Barking geckos start calling for mates with a cacophony unique to the Kalahari
- The three thorn thickets blossom with soft tissue-like flowers
- Meerkat pups begin emerging from their dens in anticipation of the rain

Summer: November – March

Days are hot and evenings mild with occasional afternoon thunderstorms

- Migrant birds arrive making birding rewarding and exciting
- Many of the antelope calve early in summer and signs of new life abound
- Jackals and foxes bring their pups above ground after the first rains to enjoy the suddenly prolific insect life
- Rain is always unpredictable in the Kalahari, and if you are fortunate enough to experience it, the rapid transformation will astound you as the desert turns into a lush green spectacle with carpets of golden flowers

Autumn: April – May

Mild days and cooler evenings. There may even be some late season rain.

- This is the greenest time of the year. The savannahs take on a beautifully silky appearance as the grass produces seeds which are blown away by the gentle autumn breeze
- May is the season where most of Tswalu's hands-on wildlife work is done (such as translocations)
- Autumn is the time of the rut; a frenzied time when antelope are in their best physical condition. They begin fighting to establish territories and seek mates
- Animals which hibernate through the short winter (such as leguaans and tortoises) become very active, eating as much as they can before the first frost
- Many of the Kalahari fruits ripen and provide food for birds departing on their long migrations

Winter: June – August

Daytime temperatures are cool and evenings become cold.

- The first frost falls and night-time temperatures can drop below freezing
- Conditions become very dry as humidity falls
- As the grass and bushes dry, sightings of rarer, smaller mammals, such as aardvark, aardwolf and pangolin increase. These shy nocturnal animals emerge in the daylight to enjoy the late afternoon sunshine
- Raptors begin building nests
- Large flocks of sandgrouse begin accumulating around the dwindling waterholes in the mornings
- The clear evening skies offer a star-gazing spectacle
- Dust devils (small swirling dust storms) drift across the sand dunes

WHAT TO PACK

- swimming costume (warmer months)
- sandals, closed shoes for walking
- something warm (just in case)
- sunblock, camera, binoculars, chargers for devices

TERMS AND CONDITIONS

It's an understatement to mention that the travel industry is in a crisis that will have consequences for years to come. This has affected each and every one of us, and we share the same challenges and concerns. In the safari context, the incremental conservation gains achieved over the years could be eroded unless we remain focused and committed to our long-term vision of preserving wilderness for the next generation. Every new or returning guest will continue to contribute to the sustainability of our conservation legacy.

To this end we have amended our standard terms and conditions to give our guests the opportunity to reserve their Tswalu experience without the long-term concern of losing their deposit as a result of Covid-19 travel restrictions. All advanced deposits are held in a separate account with a refund guarantee, thereby offering complete security of funds.

For any new bookings whilst restrictions on inbound tourism exist, your booking confirmation is required 14 days from making the provisional reservation. For all bookings a 20% deposit is required within 14 days of making a reservation (reservations must be confirmed or released within 14 days of enquiry).

The balance of the accommodation and all transfers must be paid in advance and in full no later than 30 days prior to the guest's arrival. Tswalu reserves the right to cancel the booking should payment not be received. If a booking is made less than 30 days prior to arrival full payment is required.

Payment Terms

Confirmation of booking	20% deposit
30 days prior to arrival	balance of payment

Cancellation Policy

Current - 61 days prior to arrival	No cancellation fee will apply
60 – 31 days prior to arrival	20% cancellation fee will apply
30 – 0 days prior to arrival	100% cancellation fee will apply

Our reservations team are on hand to assist with all enquiries on a 'case by case' basis, and we look forward to assisting you in planning your Tswalu experience.

Our cancellation policy is applicable regardless of whether payments have or have not been received by Tswalu, and applies to all reservations. The deposit and payment policy excludes trade partners with pre-approved credit facilities.

NOTE: Flight bookings are included in the definition of 'booking', for the purposes of this agreement and Tswalu's cancellation policy. Spa reservations cancelled on the day of the scheduled treatment will incur 100% cancellation fee.

Tswalu reserves the right to change these terms and conditions at any time. In the event that any changes are made, the revised terms and conditions will be communicated to you and shared on our website.
